■ What’s “Exhibition of Factory Night View where you can actually visit”

- Factory Night View is changing from “watch” to “visit” -

Since the factory boom few years ago, factory is becoming a new popular sightseeing spot.

Especially its night view is so beautiful that its rustic beauty overwhelms viewers.

This is the joint photo exhibition of such “Factory Night View”. It’s largest characteristic is that it gathers factories only you can actually “visit”. With the wish for you to enjoy the beauty of “Factory Night View” with your own eyes, we exhibit together with access information.

■ Highlight of “Exhibition of Factory Night View where you can actually visit 2018”

- More tricks to “visit” in the latest artworks1? -

The specificity of this exhibition is that you can actually visit the place after viewing the artworks. Artworks are exhibited together with comment such as access information so you can actually visit the place where photo was taken and take photo in the same angle.

In this exhibition, we plan to exhibit artworks using metal print with new aluminum photo panel. Different from normal print, you can enjoy machinery beauty more clearly. Also, most of the exhibited artworks can be purchased so you can share your favorite artwork. Of course, you can take photo in exhibition.

Also, in order to put tricks based on “visitor’s perspective” just like the last year’s exhibition, we plan to exhibit artworks taken by mobile phone of each artist. This is the exhibition that makes you “want to visit even more” by demonstrating that factory night view “can be taken” regardless of capacity and setting of camera.

As always, there will be comment for each artworks including access information. You can actually visit the place after the exhibition and enjoy the real site.

Professional photographers such as Hiroshi Okura the director of photo book “Factory Night View” and Eichi Katayama, popular photographers on the Internet such as Masashi Yamazaki (@masa.105) and new artists such as Akky (@akkyz_collection) and Yukino Azumi (@koujyodaiichi)! More than 200 artworks including unpublished new artworks of 18 artists.

Also, as goods sales limited on site, we plan to sell official booklet with factory access map and with all artists coverage (limited 500). In addition, there will be original factory night view postcard as a present for the first 2,000 visitors.

< Special Exhibition >

We plan to exhibit artworks with metal print with the cooperation of PiOTEC HD Print.

Different from normal artworks, you can enjoy glittering expression which is the specificity of the material. Moreover, it has “3 times longer quality endurance compared to photo print paper”.

■ Official booklet is a must-keep one!

Official booklet, which should be sold out, has totally renewed its content. It includes not only artworks of all artists but also more access code of shooting point. Limited to 500.
