■What’s “The world exhibition of miniature photos”?

A miniature model that is so sophisticated that it looks like real. Each artwork contains the detailed world view of the creator. Though you may think it’s a photo but actually, it was a fake fabricated world. In this exhibition with photo artworks and 3D artworks at the same time, visitors would wonder in the world of miniature. You can take photo in the exhibition so you can take your original photo from various angles and upload to your SNS.

In this exhibition we plan to have mainly new artworks so that repeaters could enjoy. All artworks are based on new unpublished artworks so you can enjoy the new world. In addition to Rikko (@mysiderikko) with more than 60,000 followers in Instagram, Ayako Takeda (@ayako\_takeda) and K.C.Factory (@fanlab.kokoro), there will be kerosaka (@kekerorosaka) and Espoirpika (@pikaEspoir0804) popular in Twitter joining us for the first time. For goods sales also, there will be a lot of new artworks. Limited handmade miniature goods of Hikarinohana (@hikarino87), so popular that every time it goes out of stock right away, and mori no ehon (@pohirohiro), popular with miniature stuffed doll, will be there.
